

If you have been invited via email to participate as an oral abstract or poster presenter in the IV. International Plant Breeding Congress, here are some information to help you prepare your presentation.

General procedure

Please find here general specifications regarding your poster session:

- As a presenter in IV. International Plant Breeding Congress, you will be asked to provide a poster of your research during the event taking place. Your Poster will be placed on the Poster presentation area for all day and will be available to the delegates during that day.

How can I prepare my poster?

To ensure an optimal delivery of your Poster presentation, please follow these guidelines:

- Your Poster should be prepared in **3 pages max** and displayed in **E-Poster** screen as pdf file.

On Powerpoint : *File> Export*

- Pictures and graphics in your Poster:
 - Save the picture(s) you want to use as a JPG or PNG and set the compression/quality to medium or high.

- Non-proprietary (generic) names of drug, written in lower case, are required the first time a drug is mentioned in the text
- Respect author's rights and anonymity.
